Notes

Accounting policies

The annual accounts is set up in accordance with the Accounting Act and good accounting practice for small enterprises.

Sales revenue

Revenue recognition from the sale of goods takes place at the time of delivery. Services are recognised as income as they are delivered.

Classification and assessment of balance sheet items

Fixed assets are assets destined for permanent ownership or use. Assets that are related to the cycle of goods are classified as current assets. Receivables are classified as current assets if they become due for payment within one year of the transaction date. Similarly, debt is classified as short-term if the debt is due for payment within one year.

Current assets are valued at the lower of the acquisition cost and fair value. Short-term liabilities are recognised on the balance sheet at the nominal amount at the time of establishment. Fixed assets are valued at acquisition cost. Fixed assets are depreciated according to a sensible depreciation schedule. The fixed assets are written down to fair value in the event of a decline in value that is not expected to be temporary. Long-term liabilities, with the exception of other provisions, are recognised on the balance sheet at the nominal amount at the time of establishment.

Receivables

Accounts receivable and other receivables are listed on the balance sheet at face value after deducting provisions for expected losses. Provision for losses is made on the basis of individual assessments of the individual receivables.

Property, plant and equipment

Fixed assets are recognised on the balance sheet and depreciated over the life of the fixed assets if they have an assumed useful life of more than 3 years and have a cost price exceeding kr 30 000. Direct maintenance of fixed assets is expensed continuously under operating costs, while costs or improvements are added to the fixed asset's cost price and depreciated in step with the fixed asset.

In addition, the following accounting principles have been applied:

The FIFO method for allocating acquisition cost of exchangeable financial assets, the lowest value principle of market-based financial current assets. Receivables and liabilities denominated in foreign currencies are valued at the exchange rate at the end of the financial year. Exchange gains and exchange losses in foreign currencies are recognised as financial income and financial expenses.

Tax

The income tax expense in the income statement includes both tax payable for the period and changes in deferred tax. Deferred tax is calculated at 22% on the basis of the temporary differences that exist between accounting and tax values, as well as the tax loss to carry forward at the end of the financial year. Tax-increasing and tax-reducing temporary differences that reverse or can reverse in the same period are determined and the tax effect is calculated on the net basis.

The company has not changed its accounting policy from 2023 to 2024.

To the Shareholders of

Report on the Audit of the Financial Statements 2024

Opinion

We have audited the financial statements of , showing a profit of NOK 9,915,794. The financial statements comprise the balance sheet as at December 31st, 2024, and the statement of income and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements are prepared in accordance with laws and regulations and present fairly, in all material respects, the financial position of the Company as at December 31st, 2024, and its financial performance for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with laws, regulations, and auditing standards and practices generally accepted in Norway, included International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company as required by laws and regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director (management) are responsible for the preparation and fair presentation of the financial statements in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Opinion on Registration and Documentation

Based on our audit of the financial statements as described above, and control procedures we have considered necessary in accordance with the International Standard on Assurance Engagements (ISAE) 3000, «Assurance Engagements Other than Audits or Reviews of Historical Financial Information», it is our opinion that management has fulfilled its duty to produce a proper and clearly set out registration and documentation of the Company's accounting information in accordance with the law and bookkeeping standards and practices generally accepted in Norway.
